

"Let Me Be There Now For You"
Rick Beneteau (Rick Beneteau)
Canada

VERSE 1

Your words they burned right through me
Scorched me to the bone
I never heard you talk like this
Feeling that alone
And when you said you didn't
Want to live another day
I regret I never said those things
That now I need to say

CHORUS

You've been the strength I needed
More times than I can count
Had my back at every turn
When life would tear me down
Been in my corner bracing me
Until I felt brand new
I've only got one thing to ask
Let me be there now for you

VERSE 2

I know I'm not the only one
Who feels the way I do
I only wish I had done more
Been a better friend to you
Truth is I cannot see my life
Without you there you see
So let me be the kind of friend
You've always been to me

CHORUS

You've been the strength I needed
More times than I can count
Had my back at every turn
When life would tear me down
Been in my corner bracing me
Until I felt brand new
I've only got one thing to ask
Let me be there now for you

BRIDGE

Look into my eyes
And see into my soul
Know how much I love you

Just know you're not alone

TAG:

Please forgive the me you know

CHORUS

You've been the strength I needed

More times than I can count

Had my back at every turn

When life would tear me down

Been in my corner bracing me

Until I felt brand new

I've only got one thing to ask

Let me be there now for you

I've only got one thing to ask

Let me be there now for you
