Verse 1

Felt that bomb blast pierce the dashboard  
Knock that Jesus statue on the seat  
In that moment of pure chaos  
Amid the smoke, and flames and heat  
I heard the Medi-vac chopper  
And all the sirens in the street  
And as I clutched that statue to my chest  
I swear I felt its heart beat  
And I saw it smile at me  
And say "Don't worry."

Chorus

You got Jesus Riding Shotgun  
You got nothing to fear  
You got Jesus Riding Shotgun  
And I'll always be here  
So don't you worry son  
You got Jesus Riding Shotgun

Verse 2

I heard the surgeons say the shrapnel  
Was too close to the brain  
That if I survived the night  
I'd never see again  
When I awoke from the surgery  
It felt strange but all I know  
Is I looked over at that statue  
And saw it's once opened eyes were closed  
It smiled and said "You're not alone"

Chorus

You Got Jesus Riding Shotgun  
You got nothing to fear  
You Got Jesus Riding Shotgun  
And I'll always be here  
So don't you worry son  
You Got Jesus Riding Shotgun

Bridge

They said I was hallucinating  
But the doctor's all agree  
That night a miracle happened  
Now part of Him is part of me  
And through His eyes I'll always see

Chorus

I got Jesus Riding Shotgun  
I got nothing to fear  
I Got Jesus Riding Shotgun  
And He'll always be there  
So I don't you worry none  
Cause I Got Jesus Riding Shotgun

Chorus

I got Jesus Riding Shotgun  
I got nothing to fear  
I Got Jesus Riding Shotgun  
And He'll always be there  
So I don't worry none  
Cause I Got Jesus Riding Shotgun  
Yea I Got Jesus Riding Shotgun
